

**SERVICE CARD - BUILDING  
MATERIAL II- INSULATING AND  
CLADDING MATERIALS FOR  
BUILDING (SASO)**

Doc. No.	GCIQCS-SVC-13
Rev. No.	00
Rev. Date	02 Feb 2022
Page No.	Page 1 of 2

<b>Service Title</b>	Issuance of conformity certificate for Insulating and Cladding Materials for Building According to the health and safety requirements
<b>Description of the Service</b>	Issuance of Conformity certificate for Insulating and Cladding Materials for Building complying with the SASO requirements.
<b>Products Category</b>	<ol style="list-style-type: none"> <li>1. Gypsum plasterboard</li> <li>2. Plasterboard cornices</li> <li>3. Factory mineral wool (MW) products</li> <li>4. polyurethane foam (PUR) products</li> <li>5. Polystyrene Thermal</li> <li>6. Polyurethane foam</li> <li>7. Rigid polyisocyanurate (PIR) and polyurethane( PUR)</li> <li>8. Perlite</li> <li>9. Vermiculite</li> <li>10. Autoclaved aerated concrete masonry units</li> <li>11. Rendering and plastering mortar</li> <li>12. Roof waterproofing bitumen sheets</li> <li>13. Bitumen water vapor control layers</li> <li>14. sheets for waterproofing – Plastic and rubber vapor control layers (kitchen)</li> <li>15. Vulcanized rubber</li> <li>16. Thermal insulation from cork</li> <li>17. Rigid Cellular Phenolic</li> <li>18. Plastic and rubber leakproof</li> <li>19. Metal Sheets for roofing, external and internal</li> <li>20. Metal Sheets for external cladding</li> <li>21. Aluminum panels for external cladding</li> <li>22. Wall decorative paper</li> <li>23. Fiber-cement slates</li> <li>24. Beech parquet strips</li> <li>25. Oak strips</li> <li>26. Oak parquet blocks</li> <li>27. Beech parquet blocks</li> <li>28. Parquet blocks</li> <li>29. Fir and spruce strips</li> <li>30. Coniferous wood raw parquet blocks</li> <li>31. Concrete Roof Tile</li> <li>32. Roofing Slate</li> <li>33. Mineral Wool Roof Insulation Board</li> <li>34. Fiber-cement corrugated sheets</li> <li>35. Mineral wool board for over deck insulation of roofs</li> <li>36. Slate sheets</li> <li>37. Reinforced bitumen sheets</li> </ol>

	<p>38. Wood-based panels</p> <p>39. Wet process fiber board</p> <p>40. Glass in building</p>
<b>Scheme Type</b>	Process Certification -Type 3 scheme.
<b>Service Registration Requirements</b>	<ol style="list-style-type: none"> <li>1. Application form (Online).</li> <li>2. Test report from accredited laboratory.</li> <li>3. Evidence of effective QEMS. Quality environmental Management system</li> <li>4. Brief Description of Manufacturing Process.</li> <li>5. Technical File:</li> <li>6. Supplier Conformity Declaration Form.</li> <li>7. Labelling Insulating and Cladding Materials for Buildings ready for placing or displaying in the market is as per requirement of technical regulation.</li> <li>8. Evidence/declaration for safety of designed, considering the health and safety of the persons concerned at all stages of the construction life cycle, including normal maintenance. <u>(where applicable)</u></li> <li>9. Evidence/declaration for safety during its installation, use and demolition especially Emissions of toxic gases, Emissions of hazardous substances, volatile organic compounds (VOCs), greenhouse gases or harmful particles in the air wither inside or outside the building, Hazardous Radiation Emissions., Humidity is present in the parts of the building or on its surface, Protection against noise., Thermal insulation and Energy Saving and Sustainable use of natural resources. <u>(where applicable)</u></li> <li>10. Risk assessment document. (if applicable)</li> <li>11. Fees</li> </ol>
<b>The average Period for Service Completion</b>	4 working days
<b>Group Target Client</b>	Importers subjected to put their product in KSA.
<b>Limitation of Service</b>	Applications will be canceled after 6 months without completing the requirements by the Applicant
